

PREDRAG RADIC

FULL STACK DEVELOPER

STUDYING SOFTWARE ENGINEERING FIMEK UNIVERSITY

Novi Sad, Serbia | +381 61 2123525 | prweb021@gmail.com

GitHub | LinkedIn | Portfolio

Junior Web Developer specializing in React and Node.js, focused on building fast, scalable, and user-centered web applications. Passionate about writing clean, maintainable code while delivering high-performance solutions optimized for both user experience and business growth. Strong interest in SEO optimization and process automation, helping improve online visibility, efficiency, and overall digital performance. I actively follow and apply the latest AI tools and vibe coding practices in my workflow.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

01.2025 — Present

prWeb — Novi Sad, Serbia

React, Next.js, Node.js, TypeScript, Tailwind CSS, SEO, Meta Ads, AI Tools

- Led end-to-end development of client projects, from requirements gathering and architecture decisions to deployment and maintenance.
- Managed client communication, project timelines, and delivery independently.
- Implemented technical SEO strategies across all projects, improving search visibility and Google rankings.
- Managed complete digital presence for a client, including social media, Meta Ads campaigns and analytics tracking.
- Actively apply AI tools (Claude Code, GitHub Copilot) and vibe coding practices to accelerate development and improve code quality.

Frontend Developer

01.2023 — 01.2025

AlphaCode

ReactJS, NextJS, JavaScript, Tailwind, SEO

- Developed responsive and user-friendly eCommerce webshops using React, JavaScript, HTML, and CSS.
- Collaborated with designers and developers to implement new features, optimize performance, and improve user experience across different devices and browsers.

Full Stack Developer

01.2022 — 01.2023

AlphaCode

NodeJS, ExpressJS, ReactJS, JavaScript, Tailwind, SEO

- Built and maintained full-stack web applications using React, Node.js, and Express, with database integration and REST API development.
- Worked on both frontend and backend features, improving application performance, functionality, and overall user experience.

PROJECTS

EstateSync Platform

<https://www.serbesnekretnine.com/>

Node.js, Express, React, Tailwind CSS, JavaScript, xml2js, FTP/SFTP, Vercel/cPanel

- Developed a full-stack real estate platform that automates property listing management through XML data synchronization from external real estate systems via FTP/SFTP.
- Built a modern, SEO-optimized React application with advanced property search, real-time data updates, and scalable architecture for long-term maintenance and growth.

MachineHub AI

<https://masine.ai/>

React, Vite, Tailwind CSS, JavaScript, React Helmet, Vercel

- Developed a modern web platform for importing and selling heavy construction machinery, featuring advanced filtering, interactive 3D equipment visualization, and a responsive industrial-focused UI/UX.
- Implemented SEO optimization, high-performance image handling, and conversion-focused user flows to improve search visibility, user engagement, and lead generation for B2B clients.

ShopFlow Commerce

<https://online-shop-gray-kappa.vercel.app/>
React, Tailwind CSS, JavaScript, Axios, Redux, HTML5

- Built a modern eCommerce platform with dynamic product browsing, advanced filtering and sorting, and a fully functional shopping cart system with persistent state management.
- Developed a responsive React frontend optimized for smooth user experience across all devices, integrating external APIs to simulate real-world product and user data.

EDUCATION

Software Engineering, 2nd year of studies
Fimek University, Novi Sad, Serbia

Frontend Developer Certificate
FTN Informatika

AREA OF EXPERTISE

SASS	ReactJS	MySQL
Tailwind	EJS	SEO
Framer Motion	NodeJS	Rest API
Javascript	ExpressJS	XML Parsing
Typescript	MongoDB	FTP/SFTP
Claude Code	GitHub Copilot	Meta Ads
Google Analytics	Google Search Console
